

Appl. No. 10/620,928  
Amdt. Dated August 6, 2004  
Office Action Date April 6, 2004

**Amendments to the Claims:**

This listing will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1- 2 (canceled)

Claim 3 (currently amended): An acrylic elastomer composition, which comprises a butenedioic acid monoalkyl ester-copolymerized acrylic elastomer comprising at least one kind of alkyl acrylate and a koxoalkyl acrylate unit, butenedioic acid monoalkyl ester unit and 0 - 30% by weight of vinyl or olefin monomer unit, and a cross-linking agent, wherein the acrylic elastomer which contains 0.1-30% by mole of unreacted butenedioic acid monoalkyl ester on the basis of carboxyl groups copolymerized in the acrylic elastomer, elastomer and a cross-linking agent.

Claim 4 (currently amended): An acrylic elastomer composition according to Claim 3, wherein the cross-linking agent is a polyamine compound, and a guanidine compound, a sulphenamide sulfenamide compound or a tertiary amine is used as a vulcanization accelerator at the same time.

Claim 5 (currently amended): An acrylic elastomer composition according to Claim 3, wherein the cross-linking agent is a polyfunctional isocyanate compound or blocked isocyanate, and an alkali

Appl. No. 10/620,928
